

WHAT'S NEW AT ABCF?

Celebrating the Season with You

As we celebrate the season, we want to thank you for your role in helping us serve thousands of individuals facing breast cancer in 2023. Whether it was through volunteering, donating, or increasing awareness, you enabled us to provide direct and immediate assistance through early detection testing. Test results gave relief to some and critical information to others, giving them the best chance for positive outcomes.

Thank you for your past help and if you'd like to make a year-

end gift, we promise to put it to great use in 2024.
Happy holidays!

Make a Difference

Offering Gifts with Greater Purpose

This Christmas, consider spreading joy by purchasing a gift from our ABCF shop. These thoughtful presents not only bring cheer but also contribute to a cause that makes a significant difference in the lives of those battling breast cancer.

ABCF offers a variety of items perfect for gifting – from gym bags to t-shirts. Each purchase directly supports our mission to provide assistance, education, and resources to individuals facing breast cancer. It's not just a present; it's a gesture that symbolizes hope and support.

Turning Donated Cars into Critical Care

Donate your vehicle and make a meaningful impact in the fight against breast cancer. In partnership with Breast Cancer Car Donations, we accept various vehicles, from cars to boats and RVs, and transform them into funds that support our crucial breast cancer initiatives.

By donating your vehicle, you're not just getting rid of an unwanted possession at no cost to you; you're also potentially eligible for a tax deduction. More importantly, your gift becomes a lifeline for those impacted by breast cancer.

Expanding Understanding Through Our Patient Series

Know someone recently diagnosed or just have questions about risk factors? Easy-to-understand animations and videos explain various breast cancer topics, including risk factors, screenings, diagnosis, treatment, and living well with metastatic breast cancer.

This innovative resource was developed in partnership with Animated Patient, with a grant from Pfizer. We hope that this will become the first stop for people of all ages who want to learn more about this prevalent disease.
